Rapporteur: Ivailo Kalfin ([A7-0167/2012](#))

Pino Arlacchi (S&D), in writing . – Thank you Mr. President, I abstained in the vote of this text because it proposes a comprehensive strategy to fight something that many experts don't consider as a serious threat. Cyber terrorism is indeed an exaggerated threat and for this reason I believe that Europe should not consider this issue as priority vis-à-vis most serious security matters.
