In the databases of the Commission for the EU assistance to Afghanistan for the years 2001–09 there are some projects on which we would like to be better informed:

- ASIE/2005/017-070 — Support to governance in the Islamic Republic of Afghanistan
- ASIE/2005/7017-530 — Supporting the counter-narcotics strategy of Afghanistan
- ASIE/2004/085-753- Building information management capacity in Afghanistan
- ASIE/2004/006095 — Fifth reconstruction programme — applied research for development].
- AFG/AIDCO/2001/0349 — Radio education for Afghan children
- Deconcentration — Afghanistan office — recruitment of expert Dalla Vedova<sup>(1)</sup>

For each of these projects we would like the Commission to provide us with:

1. all relevant documents;
2. a list of consultants;
3. an impact evaluation;
4. results;
5. total expenditure;
6. final reports.

<sup>(1)</sup> Translator's note: In the original this line is in French and reads: 'Deconcentration — bureau Afghanistan — recrutement expert Dalla Vedova'.
